

WE GO HORIZONTAL + VERTICAL

FEATURES & BENEFITS

- ◇ Commercial & Residential Applications
- ◇ Stormwater Management
- ◇ Gravel Or Grass Stabilized Pavement
- ◇ Works In All Climates And Soils
- ◇ Competitively Priced
- ◇ Easy To Install, High Visibility Parking Markers
- ◇ Designed For Heavy Loads, HS-20 & H-25 Rated
- ◇ Compression Strength Over 8,000psi

FEATURES & BENEFITS

- ◇ Commercial & Residential Applications
- ◇ Above And Below Grade Construction
- ◇ Continuous Double-Layer Insulation
- ◇ Solid Monolithic Wall Air Barrier
- ◇ Continuous Natural Vapor Barrier
- ◇ Enables Zero Energy Ready Builds
- ◇ Full Height Embedded Fastening Strips
- ◇ Reversible Interlock
- ◇ Available Across USA And Canada

HORIZONTAL

VERTICAL

AN INNOVATIVE DESIGN

TRUEGRID® aspired to design a paver for the real world, more precisely a permeable one. Strength, simplicity and modular versatility are the legs to the grid's design. The TRUEGRID® paver is a simple, permeable paving building block for the real world.

DESIGN FEATURES

The robust cells allow our 2 lb grid to handle over 1 million lbs per square foot load! No gravel migration, compaction or dust. 100% permeability. The grid can be pressed together by hand, no tools, no clips. With the integral X-anchors, no staking is needed. A bottom flange prevents sinking. Other systems are either too flexible & weak & can't handle trucks or traffic; or too rigid because soils move and paving cracks! The S-Flex Joints solve these problems giving our grid the best of both. A versatile design for any climate or soil or weight or traffic load.

THERE IS NOTHING ON THE ROAD TOO HEAVY FOR TRUEGRID TO HANDLE.

Got heavy loads or need help with Stormwater management? Trucks, rigs, or a high volume of automobiles? Commercial, residential, industrial or retail site? Roadway, truck yard, driveway, or parking lot? Need to delineate your parking? We have the permeable paver that fits your application.

100% LAND UTILIZATION

Save land & eliminate or reduce detention ponds. Drive on surface with detention under your parking area. Low to no maintenance. 25-60 year lifespan. Heavy traffic, heavy loads. TRUEGRID® counts as 100% pervious cover. Construction costs up to 30% less than concrete. Sustainable, upscale natural aesthetic. LEED eligible. Build with TRUEGRID®

BEAUTY, PERFORMANCE AND SUSTAINABILITY

Achieve harmony & balance development with nature. Gain space for inspired functionality & green, creative livability. Retain & reuse Stormwater on-site. Natural, upscale aesthetic. ADA compliance. Design with TRUEGRID®.

MAKE YOUR VISION A REALITY

Fox Blocks provides a full range of products and accessories to enable ultimate flexibility in the design and compatibility for any finishes to create your dream project. And if your project is filled with angles, curves and arches, we can handle that too! Almost any design can be built with Fox Blocks ICF's.

FOX BLOCKS ICF ENERGY EFFICIENCY AND COMFORT

Fox Blocks ICF builds are far superior to the standard structure in energy efficiency because of the thermal mass of the wall assembly. A Fox Blocks ICF building envelope keeps heat in during the winter and cool air in during the summer. Our ICF walls are insulated with a solid surface of continuous insulation on the inside and outside wall surfaces, eliminating air infiltration and heat transfer issues.

A Fox Blocks design offers an extremely quiet environment with substantially reduced sound transmission between the outdoors and your indoor environment, providing you with a calm, quiet, safe and comfortable setting.

FOX BLOCKS WEATHERS THE STORM AND PROTECTS YOUR INVESTMENT!

World weather conditions are changing and becoming more damaging especially for those living and working along the coasts and in the Midwest. The option of traditional construction has shown not to stand up. Fox Blocks offers you a safer structure that is proven to withstand the forces of nature like hurricanes, floods and tornadoes. Choose to fight back and be prepared... a Fox Blocks steel reinforced building is a safer building.

A GREAT INVESTMENT WITH LONG-TERM VALUE!

When it's time to make one of the largest investments of your life, make the right choice and choose a product that promotes durability, resiliency and a low maintenance solution over the lifetime of the building. Not only does a Fox Blocks structure retain its' value longer than a traditional building, it gives you the ability to realize a comfortable, safe and quiet environment. Make your vision into a reality, design and build for the future, choose Fox Blocks ICF's.
